

## SOIL

Wet + Rich + Deep

- Mix the soil
- Take off the rocks
- Put compost or natural Fertilizer

## COMPANIONS

Mint  
Cordiaender  
Rosemary  
Cucumber

Garlic  
Grapevine  
Radish

## SEEDLING & SUN

Cabbage likes the sun

- Put the seed 1 cm deep
- Put the seeds 20 cm away from each other
- Put water
- After 2 days, the plant will come out of the soil

## WATER

- Water the soil in the morning & evening

Do not water the leaves to avoid diseases

## PLANT CARE

- Add some compost or natural fertilizer to help your plant to grow
- If you see a small black insect on the leaves, it's flea beetle. They like eating the leaves. You can put garlic decoction during a few days to protect your vegetables

## HARVESTING

Duration of growth: 2 months

- Harvest the Chinese cabbage when the vegetable is as on the picture
- With a knife, cut the Chinese cabbage at ground level
